

## Captivate Advanced + Animations - 3 days Medium course

If you've previously attended the introduction course, this is the next step for you. Learn the advanced features like integrating with Adobe CC and utilising video, but also take your animations skills up a level. Adobe Captivate has editable animation effects and smoothly interacts with the Adobe Creative Suite for enhanced and efficient content development. Adobe Captivate records high definition videos, supports the use of variables to allow the creation of highly personalized and realistic materials.

### Our pledge

This course is guaranteed to be delivered by an Adobe Certified Instructor from Certitec - our pledge of excellence.

### Overview

Dig deeper into what Adobe Captivate has to offer and discover responsive design, animations, variables, SCORM packaging and many more functions your eLearning projects might require.

### Who is this course for?

This course is for existing intermediate Captivate users or those who have already taken our Adobe Captivate Introduction 2-day course who want to create software demonstrations, animations and interactive simulations. Captivate appeals to a wide variety of audiences, typically grouped in training and education, sales and marketing, or technical support and documentation.
