

Captivate Masterclass - 4 days

Beginner course

Go beyond the basics and work at an advanced level. Learn the Captivate interface, create new projects, insert slides, add animations and more - You'll be creating eLearning scenarios in just 4 days! Rapidly author professional eLearning content with advanced interactivity, software and scenario simulations, quizzes, video and other engaging experiences. Boost your eLearning productivity with templates, collaboration workflows with the use of variables to allow the creation of highly personalized and realistic materials. Deliver content virtually anywhere by publishing to Learning Management Systems and even export to YouTube and HTML5.

Our pledge

This course is guaranteed to be delivered by an Adobe Certified Instructor from Certitec - our pledge of excellence.

Overview

Who is this course for?

- Captivate Workflow for Systems Training
- Start Page
- Main Editing Interface
- Workspace Layout

Create a blank project

- New project options dialog box
- The Recording window
- Settings button
- Editing Slides
- Slides
- Filmstrip
- Slide Properties

Working with text captions and pointer

- Updating text captions
- Text Caption Editing
- Resizing and moving
- Object Style Manager
- Modify the Pointer
- Pointer path

Working with the timeline

- Set stacking order

Working with objects

- Using the Grid and the Align panel
- Stacking and Merging Images
- Grouping
- Adding Smart Shapes

Inserting animations

- Text animation
- Inserting Animations

Using animation effects

- Creating HTML5 friendly animations.
- Editing Motion paths

Responsive Projects

- Creating Responsive Projects with fluid boxes
- Properties of a Fluid box and how they work:
- Previewing on different devices.
- Converting existing non responsive content to responsive

Working with video

- Adding Slide video
- The type of video that you want to insert
- Changing a typing layer to an animation

- Adding Widgets
- Smart learning interactions

Recording demonstrations with audio

- Record audio Dialog box
- Audio file importing and editing
- Closed Captioning
- Text to speech
- Recording software simulations

Inserting question slides

- Slide pool and random slides
- Inserting random slides

Setting reporting options

- Branching

Updating projects

- Recording additional slides into an existing project

Themes and project settings

- Themes
- Templates

Learning management systems (LMS)

- Quiz preferences
- AICC and SCORM
- Manifest File
- Manifest dialog box

Publishing to HTML5

- Export considerations
- Browser support
- AICC and SCORM

Other reporting and publishing options

- Interrogating the results via the Adobe Captivate Quiz Results Analyser
- Reporting to an internal server
- Spell Check
- Skin Editor and Table of Contents
- Start and End
- Resize Projects
- Roundtrip editing via Word
- Publishing to YouTube

Planning

- Using the Captivate Draft app

Integrating with the Adobe Cloud

- Integrating Adobe Photoshop

Course outline (continued)

- Integrating Adobe Flash
- Integrating with Illustrator
- Previewing with Adobe Edge Inspect
- Previewing in SCORMCLOUD
- Troubleshoot any issues with the trainer
- Bring in your existing problem projects for the trainer to assist with

Video

- Encoding video files for use in Captivate
- Adding and editing animation effects
- Recording high definition 'screen casts'
- Inserting widgets and preloaders into the project

YouTube

- Uploading video for YouTube
- Sharing YouTube videos
- Integreating into your projects

Mobile devices

-
- Working with multiple screen resolutions
- Testing mobile projects
- Sharing mobile projects

Animations

- Using smart shapes as buttons
- Using buttons to trigger animation effects
- Switch object visibility on/off
- Introducing Edge Animate

Variables

- Creating and insert 'system' and 'user' variables
- Using variables to gather data
- Creating 'conditional' and 'shared' actions
- Object State view
- New variables in Captivate
- Detailed use of 'Drag and drop' functionality

Aggregator projects

- Create an 'aggregator' project
- Publish the aggregator project

Reviewing

- Reviewing projects pre-publishing with the Captivate 'Reviewer' software
- Publishing for Learning Management Systems (LMS)
- Using the Geolocation variable

Analysing

- Captivate Quiz Results Analyzer - the LMS alternative
- Creating and editing Aggregator project

Troubleshooting

Further information

Our guarantee of training satisfaction

No questions, no quibbles, no problem!

Should you ever need to take your course again, just let us know.

Requirements

- Basic knowledge of Windows or Macintosh.
- Understand how to launch an application and save files.
- For web courses you will need to have knowledge of web browsers.

Lunch

We provide flexible lunch vouchers which can be redeemed at outlets nearby such as

- Bella Italia
- Boots
- Burger King
- Co-operative
- Eat
- Greggs
- McDonalds
- Pizza Express
- Pret A Manger
- Starbucks
- Sainsbury's
- Tesco

to name but a few.
