

Illustrator Advanced + Adobe Certified - 3 days Medium course

If you're looking to become Adobe Certified after completing the Introduction course, this is for you. Learn all of the advanced features of Illustrator and take that step up by becoming Adobe Certified. Imagine taking your Adobe Illustrator skills to the next level. Make complex vector logos ready for conversion to raster and vector graphics for posters and web graphics with full colour management and infographics. You will be able to also trace and colour your hand-drawn artwork with Live Trace, master brushes, create and control infographics and become Adobe Certified!

Our pledge

This course is guaranteed to be delivered by an Adobe Certified Instructor from Certitec - our pledge of excellence.

Overview

Understanding how to use Illustrator's advanced features will revolutionise the way you work. This course will build upon the knowledge from the Illustrator Introduction course by moving from simple illustrations to more complex ones. You'll go beyond the basics with features like filters and effects, explore more in-depth typographical adjustments, infographics and the printing process of your layouts.

Who is this course for?

Graphic designers or people switching into a design job or taking on design responsibilities. You will have some previous experience with Adobe Illustrator.

Become Adobe Certified with Certitec

Download the Certitec ACA Accelerator app to help pass your exam!

This course comes with our ACA Accelerator app which provides all the information you require to increase your chances of passing the ACA exam. It comes with exam tips-and-tricks, expert advice on how to take the exam and 70 simulator questions with live feedback - all inside the one app which becomes available for download 5-days prior to your course.

What you will learn

- Further adjust Bézier curves by creating Compound paths
- Create Custom Brushes and various graphic styles
- Work with transparency and other raster effects like drop shadows
- Accurately adjust type in artwork
- Creating manual and dynamic infographics
- Prepare documents for composite and commercial printing
- Enhance the workflow
- Integration of Illustrator with the rest of the Creative Suite

Validate your new accreditation with digital badges and boost job prospects

Acclaim partners with the organisations that issue recognition, the people who earn it, and the employers who hire them. This means that when you become Adobe Certified - Acclaim can promote your new accreditation to social media

Level: **Medium**
Duration: **3 days**

Course outline

Selecting and transforming objects

- Setting your selection preferences
- Using the Direct Selection and Group Selection tools
- Using the Magic Wand tool
- Using the Lasso tool
- Selecting objects by attribute
- Grouping objects
- Resizing your artwork
- Rotating objects
- Distorting and transforming objects
- Repeating transformations
- Reflecting and skewing objects
- Aligning and distributing objects

Advancing the pen tool

- Understanding paths
- Understanding anchor points
- Drawing straight segments
- Editing a path as you draw it with keyboard shortcuts
- Inserting and removing anchor points
- Adding curvature
- Control handles
- Cusp points
- Drawing perfectly smooth outlines
- Tracing a freeform, curvy path
- Converting an existing anchor point
- Working with open and closed paths
- Joining paths
- Averaging and aligning paths
- Using the Scissors tool

Working with colour

- RGB vs. CMYK
- Adjusting Illustrator colour settings
- Process or global swatches
- Creating spot colours
- Using the swatch groups
- Working with colour libraries
- Importing swatches
- Using the Colour Guide panel
- The Colour panel
- Defining and using process colours
- Defining and using global process colours
- Defining and using spot colours
- Accessing colour libraries

Working with fills and strokes

- Understanding fills and strokes
- Working with fills

- Working with strokes
- Creating dashes and arrows
- Creating variable-width strokes
- Using width profiles
- Outlining strokes
- Creating and editing gradients
- Applying gradients to strokes
- Applying and editing pattern fills
- Creating your own pattern fill

Creating shapes

- Understanding drawing modes
- Creating compound paths
- Creating compound shapes
- Working with the Shape Builder tool
- Working with the Blob Brush and Eraser tools
- Working with the Paintbrush and Pencil tools
- Smoothing and erasing paths

Adjusting appearances

- Exploring the Appearance panel
- The stacking order
- Working with multiple fills
- Working with multiple strokes
- Adjusting appearance with live effects
- Saving appearances as graphic styles

Tracing

- Auto-tracing in Illustrator
- Opening an image to embed it
- Placing an image to create a dynamic link
- Auto-tracing and resolution
- Adjusting layer previews
- Cleaning up with the Threshold option
- More clean-up with the Noise option
- Expanding and simplifying traced paths
- Flipping and fusing shapes
- Scaling resolution-independent vectors

Live paint

- Introducing Live Paint
- Stroking with the Live Paint Bucket tool
- The Live Paint Selection tool
- Adding a path to a Live Paint group
- Constructing the base objects

Working with images

- Placing images into Illustrator
- Working with the Links panel
- Embedding images into Illustrator
- Cropping images with a mask

Course outline (continued)

- Best file types to use
- Exploring the Image Trace panel
- Tracing photographs
- Tracing line art
- Converting pixels to paths with Image Trace

Drawing in perspective

- Defining a perspective grid
- Drawing artwork in perspective
- Applying artwork to the grid

Printing, saving and exporting

- Printing your artwork
- Saving your artwork
- Saving in legacy formats
- Saving templates
- Creating PDF files
- Saving for the web
- Creating high-res bitmap images
- Using Illustrator files in Photoshop and InDesign

Infographics and dynamic data

- Importing correcting and editing data
- Swapping between Graph Type
- Changing the Graph Type settings
- Selecting and colouring graph elements
- Creating and defining a design for Illustrator charts
- Applying a chart design to a marker
- Adding numeric values to a column chart

Customising infographics and 3D

- Designing your own charts
- Creating a 3D Pie chart
- Designing an Infographic project
- Visualising data

Working with brushes

- Introducing the Brushes panel
- Applying and editing a calligraphic brush
- Applying and scaling art brushes
- Applying and editing a scatter brush
- Formatting and scaling brushed text
- Editing the path outlines of an art brush
- Replacing an existing art brush
- Creating and refining an art brush
- Creating and editing a pattern brush
- Expanding and filling brush outlines
- Brushes meet text
- Adjusting the bristles in a bristle brush
- Creating brushes for a Fashion drawing

- Producing a children's illustration utilising brushes

Envelope distortions

- Introducing Envelope Distort
- Editing the contents of an envelope
- Warping an envelope mesh
- Creating and editing an envelope mesh
- Blending an envelope into a background

Gradient tool

- Creating gradients
- Applying a gradient fill
- Using the gradient annotator
- Editing multiple gradients
- Creating a radial gradient
- Adjusting the midpoint skew
- Mixing gradients with blend modes
- Making a transparent gradient
- Drop shadows and dynamic effects
- Assigning a gradient to editable text
- Assigning a gradient to a stroke

Gradient mesh

- Introducing the gradient mesh
- Working with the Mesh tool
- Finessing the colours of mesh points
- Adding a gradient mesh to a shape
- Converting a linear gradient to a mesh
- Editing a linear gradient mesh
- Converting a radial gradient to a mesh
- Editing a radial gradient mesh

The blend tool

- The earliest dynamic functions
- The gradient-intensive illustration
- Creating a multi-colour blend
- Establishing a clipping mask
- Editing blended paths
- Adjusting the number of blended steps
- Using the Blend tool
- Blending between levels of opacity
- Applying a blend to a new path
- Placing one mask inside another
- Blending groups and adjusting the speed
- Rotating objects in 3D space

Warps, warp brushes and the blend tool

- Introducing the warp tools
- Brush size
- Introducing Envelope Distort

Course outline (continued)

- Editing the contents of an envelope
- Warping an envelope mesh
- Working with an envelope mesh

Working with type

- Creating a grid with guides
- Working with Point Type and Area Type
- Placing and flowing text
- Threading text
- Selecting type and choosing fonts
- Adjusting type size
- Leading
- Tracking and Kerning
- Baseline Shift
- First Line indents
- Paragraph spacing
- Creating paragraph styles
- Redefining paragraph styles
- The Glyphs panel
- Spell-checking
- Creating text on a path
- Converting text into paths

What will you learn?

The morning of the course covers areas such as project building, accessibility in your content creation and usability.

What is the format of the day?

You will take your Adobe certified exam in the afternoon.

What else should you know?

Should you fail the exam, Certitec provides one free re-take on the day. Further exam testing is available at our London Covent Garden and Cardiff venues at Â£99 per exam.

Further information

Our guarantee of training satisfaction

No questions, no quibbles, no problem!

Should you ever need to take your course again, just let us know.

Requirements

- Basic knowledge of Windows or Macintosh.
- Understand how to launch an application and save files.
- For web courses you will need to have knowledge of web browsers.

Lunch

We provide flexible lunch vouchers which can be redeemed at outlets nearby such as

- Bella Italia
- Boots
- Burger King
- Co-operative
- Eat
- Greggs
- McDonalds
- Pizza Express
- Pret A Manger
- Starbucks
- Sainsbury's
- Tesco

to name but a few.

Support

We supply 6-months rock-solid support via email on the subject matter covered during the course.

General information

- Courses start at 10am and finish at 5pm.
- Please arrive 30 minutes prior to the start of the course on the first day.
- We operate a casual dress code.
- We supply all computers, software and courseware, pads, pens, lunch and refreshments.

- We have both macOS and Windows computers in our training rooms.
- Bring along a USB/Flash drive so you can take away your course files.
- Following your course, we will email you an Adobe Authorised Course Completion Certificate.
- Each course comes with an 500-page Adobe Classroom training book.
- Access to a secure section of our site that offers useful tips and tricks.
